-: Announcement -:

This is my first public offering of Short Horn Cattle and it is with pleasure that I invite breeders and farmers to attend my sale and inspect the offering. Over half the offering are of the best Scotch families.

Orange Flora was the first Short Horn cow I ever owned and I paid \$310 for her in December, 1906. That is the kind I have always bought, the kind the other fellow wants. I have been breeding a beefy type of cattle that raise their own calves. I am selling cattle that are as well bred as the herd books afford. I have been using the best Scotch bulls obtainable. All calves calved before January 1, 1914, have been recorded and certified copies given purchaser. I invite all Short Horn admirers to attend this sale.

Very respectfully,

M. W. MYERS.

Accommodations—All parties from a distance will find free transportation from Beaman, and Grundy Center, Iowa. Parties arriving in Grundy Center day before sale will find free accommodations at Columbia Hotel. Free dinner at noon.

Terms—Cash or six months time on bankable note at 8 per cent. Parties from a distance desiring time will be required to furnish bank reference.

Guarantee—All bulls guaranteed breeders when properly cared for. If a bull fails to breed, we must be notified within 6 months from date of sale. We reserve the right when so notified to have bull returned to us for further trial, bull to be in as good condition as when sold. If he then fails to breed, purchase price will be returned with interest; but if bull breeds for us he will be returned to purchaser at his expense.

All females of breeding age are guaranteed breeders when properly cared for. A cow with calf at side or safe in calf is proven a breeder, and no further guarantee pertains.

Cattle will be loaded on cars free of charge, but will be at purchaser's risk as soon as sold. Attention is called to the Owens Bros. sale at Homestead, Iowa, June 10th.

This is one of the old, tried and standard families, elegantly bred, and are noted as excellent milk cattle as well as great beef producers. Their milking qualities have been largely developed, as the family was for a number of years owned in the Eastern states, where milk was more essential than beef.
